

2.6.2

This is the first cycle of accreditation. Institute has identified and developed Course Outcome and Program Outcomes as a part of fulfillment of SSR. Due to this there is no previous record showing level of attainment of outcomes. However, during IQAC meeting a framework for attainment of Cos, POs and PSOs were designed. Accordingly, following policy for the same was designed:

Parameter and weightage while calculating attainment

Parameter	Weightage
Internal Evaluation	20%
External Evaluation	70%
Feedback from stakeholders	10%

Calculation of level of Attainment:

Level	Attainment Condition
Level 1	18%-36% students above class average marks
Level 2	37%-55% students above class average marks
Level 3	56%-93% students above class average marks

Calculation of attainment of COs, POs and PSOs will be implemented from the academic year 2018-19.
